▶ KEY FEATURES

ANL has PNG covered!

Our APR service is our direct South East Asia service, operated by two vessels offering direct calls from Port Kelang, Singapore and Jakarta to the Papua New Guinea main ports. Using the ANL worldwide network, we are also able to offer connections to South-East Asia, China, Hong Kong, the ISC, MEG, Europe and the United States.

North Asia cargo is connected in Port Kelang utilising our frequent and reliable Group feeder services from our vast coverage of ports in China, Hong Kong, Taiwan, Korea and Japan.

ANL's two PNG services now offer the fastest service from both Australia and South East Asia with Lae a 6-day transit from Brisbane, 12 days from Port Kelang and 8 days from Jakarta.

ANL has the world covered with global connections offered from Port Kelang. If you are having difficulty in deciding how to transport your cargo to or from Papua New Guinea, relax and call your local ANL Container Line office.

Northbound Rotation Matrix
